

# Take Notice

**Take Notice is CLASP's campaigning group. What do our members say about Take Notice?**

It has made me feel more confident, I have met new friends and it has stopped me being shut away.

I like listening to other people.

It is good for speaking up for yourself.

We help people with their concerns.

Everyone is friendly. I feel part of something and welcomed.

I like that it is a much bigger group and we talk about more things.

We have interesting meetings.

I get to see my friends and talk about stuff that counts.

I give feedback to other groups (about our work).

I'm new to the group and I've enjoyed it.

It is good for meeting new friends, getting out of home and meeting people who have similar ideas to me.

I just love meetings. I get a lot of enjoyment out of them.
